

FETUS SPECIFIC INFORMATION [FETUS]

(From Mother's Notes)

STUDYNO [STUDYNO]: _____

FETUS NO [G200_FETUS]: _____

DATE: __ / __ / __

CODED BY: _____

ANTENATAL CARDIOTOCOGRAPHY [G200_CTG]:

Y / N No. performed [G200_CTGNO]: _____

GA [G200_GA_CTG]: _____ (first)

Last test result [G200_CTG_RES]:

- | | |
|---------------------|--------------------|
| 1. RNST | 5. R positive CST |
| 2. NRNST | 6. NR negative CST |
| 3. R equivocal CST | 7. R positive CST |
| 4. NR equivocal CST | 8. NR positive CST |

Time between last test and labour onset or elective delivery [G200_CTG_TIM]: _____ d

(> 24h = 0)

(> 14d = 98)

Was delivery based on this result? [G200_CTG_DEL]: Y / Partially / N

ABNORMAL DOPPLER FLOW STUDIES [G200_M_DOPP]: Y / N

At:

___ 1 ___ w [G200_GA_DOPP1]: _____

___ 2 ___ w [G200_GA_DOPP2]: _____

___ 3 ___ w [G200_GA_DOPP3]: _____

Was delivery based on this result? [G200_DOPP_DEL]: Y / Partially / N

PRESENTATION/LIE WHEN FIRST ADMITTED IN LABOUR [G200_PRES1]:

_____ (or prior to E1 CS)

1 = OA	4 = Vx/Ceph	7 = Breech
2 = OP	5 = Face	8 = Transverse/Oblique
3 = OT	6 = Brow	9 = Unkn

PRESENTATION/POSITION AT FIRST EXAMINATION IN 2ND STAGE

[G200_PRES 2]: _____ (code A/A)

9 = Not examined in 2nd stage

MECONIUM PRESENT [G200_MEC]: Y /

N Type **[G200_MEC_TYPE]:** _____

1 = Old thin

3 = Moderate

2 = Fresh thin

4 = Thick (pea soup)

First seen at **[G200_MEC_CM]:** at _____ cm (97 = at delivery)

At SRM/ARM **[G200_MEC_SRW]:** Y / N

ELECTRONIC FHR MONITOR IN LABOUR [G200_MONITOR]: Y / N

ABNORMAL CTG/FHR IN LABOUR [G200_FHR]: Y / N

At dilation _____ cm **[G200_FHR_CM]**

Lates **[G200_FHR1]:** Y / N

Sinusoidal **[G200_FHR6]:** Y / N

Variables – mild/mod **[G200_FHR2]:** Y / N

Only flat **[G200_FHR7]:** Y / N

Variables – severe **[G200_FHR3]:** Y / N

Bradycardia **[G200_FHR8]:** Y / N

Lates + Variables **[G200_FHR4]:** Y / N

Tachycardia **[G200_FHR9]:** Y / N

Incomplete info in notes **[G200_FHR5]:** Y / N

Other **[G200_FHR0]:** Y / N

Was delivery based on this result? **[G200_FHR_DEL]:** Y / Partially / N

SCALP pH IN LABOUR [G200_SCALP_PH]: Y / N

Scalp pH: **[G200_PH1 - PH4]**

Time: **[G200_PH_TIME1 - PH_TIME4]**

Dilation: **[G200_PH_CM1 - PH_CM4]**

MODE OF DELIVERY [G200_DEL_MODE]: (circle)

- A SVD (spont vertex) – OA
- P SVD – Direct OP
- B Face
- C Outlet forceps (OA)
- D Midcavity forceps (OA) (no rotation)
- E Rotational forceps
- F Vacuum extraction (no rotation)
- G Vacuum extraction (with rotation)
- H Vaginal breech (assisted)
- J Breech extraction
- K Elective Caesarean Section (decision made before SRM or labour)
- L Non-elective Caesarean Section (in labour or membs rupt)
- M Midcavity forceps (OP) No rotation Delivered OP

Manual Rotation [G200_MAN_ROT]: Y / N

Shoulder Dystocia [G200_SH_DYST]: Y / N

Degree [G200_DYST_SEV]: _____ (1 = mild; 2 = mod; 3 = severe)

If C, D, E, F or G (operative vaginal delivery), then REASON [G200_OP_DEL]: (circle)

- 1 Delay in second stage (OA)
- 2 Malposition (e.g. DOP, DTA)
- 3 Maternal exhaustion, distress
- 4 To avoid maternal effort
- 5 “Fetal distress”
- 6 Cord Prolapse
- 7 Unknown

If L (non-elective caesarean section), then REASON [G200_NE_CS]: (circle)

- A Failed induction

- B “Failure to progress” in labour – other than definite CPD
- C Cephalopelvic disproportion (CPD) – vertex
- D Brow presentation
- E Face presentation
- F Presumed fetal hypoxia / “fetal distress”
- G Breech presentation – inadequate progress
- H Fottling breech
- J Cord prolapse
- K Second twin (unable to deliver)
- L Second twin – c.s. done for complication involving first twin
- M Multiple pregnancy
- P Preterm Breech
- R Intrapartum Haemorrhage
- S Term Breech – “semi-elective” (eg. undiagnosed)
- T Transverse lie
- O Other – Specify: _____
- U Unknown

PLACENTA

Placenta weight **[G200_PLAC_WT]:** _____

g Placenta Shape **[G200_PLAC_SH]:** _____

1 = Normal

2 = Circumvallate

3 = Bipartite

4 = Battledore

5 = Succenturiate lobe

6 = Retroplacental clot

8 = Other

CORD

Single umbilical artery **[G200_CORD_ART]:** Y / N

Description **[G200_CORD]:** _____

1 = Normal

2 = True knot

3 = False knot

4 = Cord around neck loosely

5 = Cord around neck tightly
6 = Vellamentous insertion

7 = Abn short cord
8 = Other: _____

OTHER INVESTIGATIONS DONE ON FETUS ANTENATALLY

Chromosomes **[G200_CHROM]:** Y / N

Result **[G200_CHROM_R]:** _____ 1 = Normal. 2 = Abnormal – Specify _____

Amniotic fluid AFP **[G200_AF_AFP]:** Y / N

Result **[G200_AFAFP_R]:** _____ 1 = Normal

2 = High

3 = Low

Other **[G200_FET_TEST]:** Y / N

Specify _____
